

## Helping Victims of Sexual Assault

12/05/2014

This week, the House approved the National Defense Authorization Act (NDAA), important legislation passed by Congress each year that serves as the budgetary blueprint for the Pentagon. This bill includes important initiatives I authored for members of our military and our veterans from addressing sexual assault to ensuring our service members receive the benefits they were promised. Our sons and daughters in uniform sacrifice a great deal to protect our freedoms, and I am pleased to have supported this legislation which is critical to them, our veterans, and their families. You can read more [here](#).

Have a great week!

A handwritten signature in blue ink that reads "John Kline". The signature is written in a cursive, flowing style.
